WARNING

Before manipulating or making any sight adjustments, place the “safety” in the on safe position, remove the magazine, open the action and ensure the chamber is empty as explained in Section 15.1 of your Owner’s Manual. Always keep the muzzle pointed in a safe direction. Failure to follow these warnings may result in serious injury or death.

2.1 Installation Instructions; Flip sight up for easier installation.

Be sure to pull back on the charging handle before sliding onto rail. Remove the 10-24 slotted head screws from the sight and slide onto rail. When sight is in the desired position, hand tighten the slotted head screw. Do not over tighten.

2.2 Deploying and folding the Rear Sight

2.2.1 Deploying; To deploy the sight, depress the release latch by pushing down on the knurled surface or on either side of the latch.

2.2 Zeroing

The Magpul Manual MBUS sight is adjustable for windage only. Elevation adjustments are made on the front sight as explained in Sections 17.2 and 17.3 of your Owner’s Manual. The front sight should be zeroed at the desired distance with the small aperture up on the rear sight.

2.2.1 Rear Sight Adjustment; Adjustments for windage of the MBUS rear sight are done by rotating the windage adjustment knob located on the right side of the sight assembly. Rotating the windage knob clockwise will move the point of impact right. Rotating the windage knob counterclockwise moves the point of impact left. Each click on the windage knob equals approximately ¾” at 100 meters. See Table 1 on Page 36 of your Owner’s Manual for details.

3. Magpul MOE SLG Hand-guard

The Magpul MOE SLG drop-in rail assembly is installed on the FN15™ Carbine in place of the standard round handguards. The MOE SLG hand-guard features M-LOK slots at the 2, 6 and 10 o’clock positions for mounting MIL-STD-1913 of optional Picatinny rails or other optional accessories. With the MOE SL hand-guard there is no swivel installed on the front sight.

WARNING

Before installing any sights, lasers or other devices on the carbine, place the “safety” in the on safe position, remove the magazine, open the action and ensure the chamber is empty as explained in Section 15.1 of your Owner’s Manual. Always keep the muzzle pointed in a safe direction. Failure to follow these warnings may result in serious injury or death.

WARNING

Do not mount any sight, laser, or other device which interferes with normal operation of the carbine or extends beyond or in front of the muzzle. Ensure any sight or device attached to this rail is firmly mounted.

WARNING

Before removing, moving or reattaching the rear sight, place the “safety” in the on safe position, remove the magazine, open the action and ensure the chamber is empty as explained in Section 15.1 of your Owner’s Manual. Always keep the muzzle pointed in a safe direction. Failure to follow these warnings may result in serious injury or death.
4. Technical Specifications:

FN15™ MOE SLG Carbine Owner’ Manual Addendum

We are pleased that you have chosen an FNH USA FN15™ Magpul MOE SLG Carbine. The FN15™ MOE SLG Carbine shares the same reliability, durability, accuracy and many of the operating features as the standard FN15™ Carbine. However, it has additional special features such as a Magpul MBUS flip up rear sight, hand guard, pistol grip, trigger guard and magazine. This addendum will cover the operation of those specific features where they differ from the standard FN15™ Carbine. The common operations and features are covered in the FN15™ Owner’s Manual supplied with your FN15™ MOE SLG Carbine.

**WARNING**

Before inspecting or making any adjustments on the FN15™ MOE SLG Carbine fully read and understands completely the Owner’s Manual as well as this Addendum. Place the “safety” in the on safe position, remove the magazine, open the action and ensure the chamber is empty as explained in Section 15.1 of your Owner’s Manual. Always keep the muzzle pointed in a safe direction. Failure to follow these warnings may result in serious injury or death.

1. Contents of the Storage Case

- FN15™ Magpul MOE SLG Carbine
- Safety lock and two keys
- One Magpul 30-round magazine
- Owner’s Manual and this Addendum

2. Rear Sight Use and Adjustment

The Magpul MBUS Flip-Up rear sight is provided as a primary sighting system or back-up sighting system if an optic is also being used. The Magpul MBUS Flip-Up sight will fold down when not in use and can be quickly deployed when needed. It is adjustable for windage and has two apertures, one for low light or close-range engagements.
